

Capture The Flag – Cybersecurity Workshop

Cisco Networking Academy

Raquel Martínez Hernández

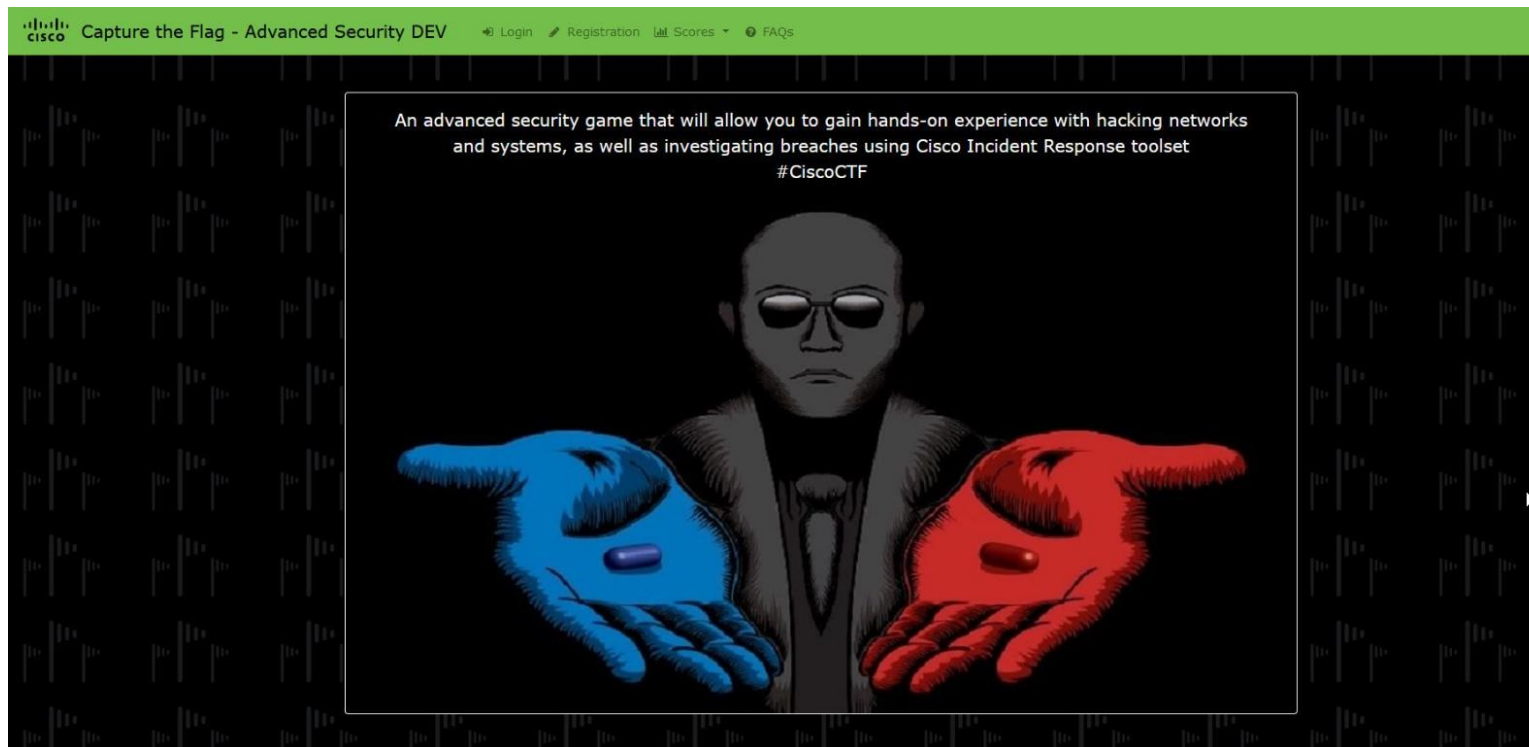

Europe Technical Manager

June 2023

What is Capture The Flag?

Capture the Flag, or simply CTF, is a next generation learning platform where people can obtain **hands-on** experience on compelling **architectural use cases**, by solving real lab challenges in a **gamified** environment.

During a CTF game, the player is given a series of **treasure-hunt like tasks (aka flags)**, that are done in a real lab environment with the goal of obtaining an understanding of various **Cisco's technologies and toolsets**.

How to register

Enter the challenge (Firefox or Safari browser recommended)

Welcome to CTF

Hi Player!
Joining a CTF Event requires an account. Please [login](#) to the CTF Portal if you already have a CiscoCTF account. If you are playing a CiscoCTF for the first time, then please [sign up](#) for an account.
Thanks!

Missions and Flags

Missions and Flags

- The game is composed of two levels
- Each level has a series of missions of different themes.
- Each mission has several flags to complete depending on the tasks that need to be accomplished to complete the mission.

Missions in each level

- Blue Team Powered by Cisco Secure
 - Secure Firewall Basics
 - Secure Firewall Intermediate

Secure Firewall Basics

Mario is having trouble with some threats who are trying to invade the castle and kidnap the princess. We are here to help you identify who they are and where in the castle they are located. Once we can identify those threats, we can tell our firewall what they look like and we can stop them from advancing. Are you ready?

Tips

Suggestions

- The missions are in English, as well as the platform
- Some missions have concatenated flags (one depends on the previous one to continue).
- The missions are independent of each other. Start with the tracks that are easiest for you.
- Hints take away from your total score. Do not use them lightly, only if necessary.
- If you have any questions or problems, do not hesitate to ask.
- Have fun!
