New IPD home on new NetAcad.com

This screenshot shows the top navigation bar of the new NetAcad.com interface. It includes a 'My Classes' dropdown menu, the 'IPD Academy' logo, a language selector set to 'EN', a help icon, and a user profile for 'Echo Instructor'. Below the navigation bar are two main buttons: 'Instructor Professional Development' and 'Educator Resources', both highlighted with red boxes.

This screenshot shows the 'Educator Resources' section of the NetAcad.com interface. The 'Explore' button in the top navigation is highlighted with a red box. The 'Educator Resources' tab is selected, and the 'Instructor Professional Development' link in the left sidebar is also highlighted with a red box. The main content area features a section for 'UPCOMING SESSIONS' titled 'Upcoming IPD Week' in red, which includes a card for 'IPD Week February 2025'. Below this is a 'VIEW PAST SESSIONS' section with cards for 'AI in Education Series' and 'Ethical Hacker Series'. At the bottom, there is a 'Browse educator resources' button, a 'Learn more about IPD' button (highlighted with a red box), and a 'View all All IPD Resources' link.

This screenshot shows the 'Educator Resources' section of the NetAcad.com interface with filters applied. The 'Instructor Professional Development' filter is selected in the 'Category' section, and the 'IPD Week' filter is selected in the 'IPD Type' section. The main content area displays three cards for 'IPD Week' events: 'IPD Week December 2024', 'IPD Week February 2025', and 'IPD Week September 2024'. The 'IPD Week' filter in the sidebar is highlighted with a red box.

AI in Education Series

Compilation of AI IPD Sessions

Series Introduction

AI in Education Series

Embark on a journey through a captivating series of webinars exploring the transformative power of Artificial Intelligence (AI) across various educational landscapes. From revolutionizing content, assessment, and pedagogy to navigating the nexus of coding and education, our sessions will provide you with insightful discussions and practical tools to integrate AI into your classroom. Delve into the crucial topics of digital security in the age of AI, the pivotal role of AI infrastructure, and the future of ICT jobs. Additionally, learn about the latest updates in Cisco's AI course and the upcoming AI-enhanced CCNA curriculum. Whether you're an educator, student, or AI enthusiast, these webinars offer a blend of knowledge, inspiration, and hands-on practice to prepare you for an AI-driven world. Be part of the change that's redefining education in the 21st century.

These sessions were delivered as part of Instructor Professional Development. [Learn more](#)

Outline

- Series Introduction
- AI in Education - How We May Teach and Learn
- AI in Education - AI-Powered Classrooms: Navigating the Nexus of Coding & Education
- AI and Education Series: Navigating the New Frontiers of Security
- AI and Education Series: Networking for AI
- AI and Data Science Portfolio Update
- AI Education Series: Artificial Intelligence for CCNA
- AI Series: The Future of ICT Jobs
- Teaching AI and with AI: Everything You've Never Dared to Ask

Networking Academy Ethical Hacker Series

Compilation of Ethical Hacker IPD Sessions

Series Introduction

Unleash the Power of Ethical Hacking with Our Exciting Webinar Series!

Dive into the dynamic world of offensive security with our captivating webinar series, tailored for educators and cybersecurity enthusiasts eager to explore the cutting-edge of ethical hacking and threat management. This series is a treasure trove of practical insights, designed to elevate your teaching methods and ignite your students' passion for cybersecurity.

What You'll Discover:

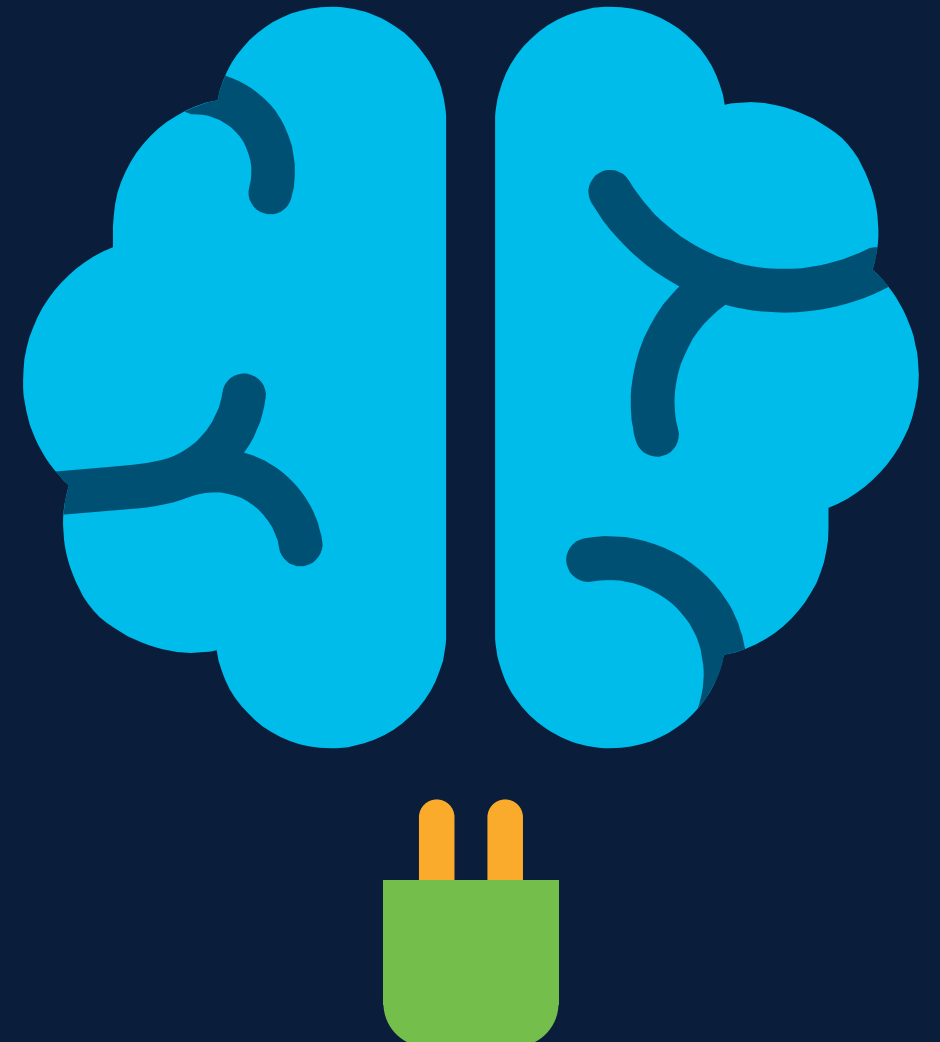

- **Cybersecurity Resilience:** Strengthen your understanding of offensive security through our Ethical Hacker course, empowering you to build a more resilient cybersecurity curriculum.
- **Reconnaissance Techniques:** Master the art of gathering intelligence with advanced reconnaissance strategies that form the backbone of effective penetration testing.
- **Real-World Insights:** Gain insider knowledge from subject matter experts on penetration testing and exploiting vulnerabilities, offering a glimpse into real-world scenarios.
- **Hands-On Experience:** Explore demonstrations and gain practical skills in setting up your own offensive security lab environment and labs.
- **In-Depth Vulnerability Management:** Learn about Cross-Site Scripting vulnerabilities and the vulnerability management lifecycle with guidance from Cisco's Product Security Incident Response Team.

Why Join?

These sessions, part of our Instructor Professional Development, are crafted to inspire educators to integrate offensive security into their curriculum, thus preparing the next generation of cybersecurity professionals. By engaging with these webinars, you'll not only

Platform Orientation
for Educators

Available post-login

The screenshot shows the Cisco Networking Academy website interface. At the top, there is a navigation bar with the Cisco logo, 'Networking Academy', and a search bar. A blue arrow points to the 'Explore' dropdown menu. Below the navigation bar, the 'Educator Resources' tab is selected. On the left, a sidebar lists resource types: 'About the program', 'Teaching and learning', 'Practice tools and labs', and 'Instructor Professional Development'. A blue arrow points to 'About the program'. The main content area is titled 'ABOUT THE PROGRAM' and contains three resource cards: 'Program Orientation for Educators', 'Platform Orientation for Educators', and 'Global Impact Report'. A blue arrow points to the 'Platform Orientation for Educators' card. At the bottom of the main content area, there is a 'Learn more about the program' button and a 'View all' link. On the right side, there are sections for 'WHAT'S NEW' (AI Security Nuggets), 'STAY INFORMED' (News for educators, Upcoming events, Recognition), and 'QUICK LINKS' (Convergence Hub, Marketing resources, Certification discounts, Find an ASC/ITC). A 'Browse educator resources' button is located at the bottom left of the main content area.

Basic Navigation

Tutorial

Learn the skills, land your dream job.

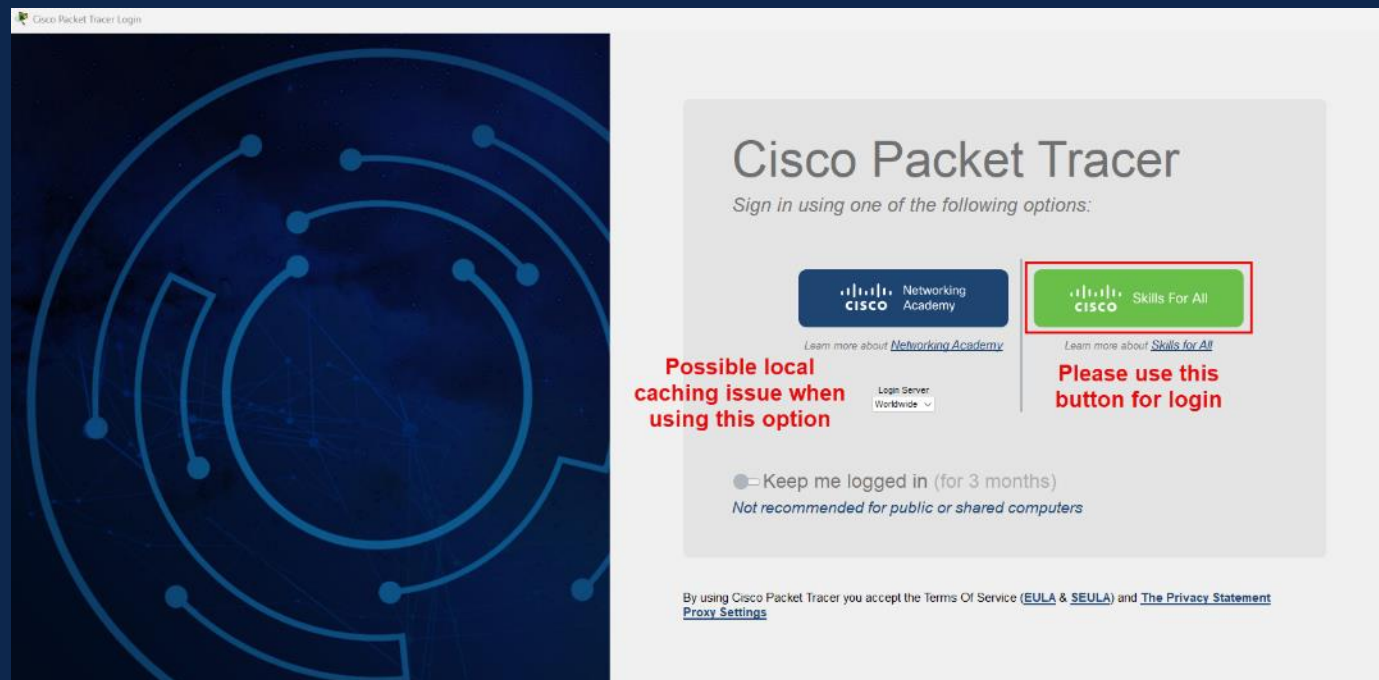

Select Organization & Role

3.4 million students say Cisco Networking Academy helped them land a new job.

(9:10) In this video tutorial, you'll navigate the essentials of the platform, from logging in and exploring the Learning Catalog to managing your classes and utilizing Educator Resources. Discover how to switch roles, use the virtual assistant for support, and differentiate between self-paced and instructor-led classes. By the end of this tutorial, you'll feel confident in using the platform to enhance your teaching and support your students' success.

Packet Tracer Login

- **Cisco Packet Tracer:** There is currently an issue logging into Cisco Packet Tracer using the Networking Academy login button. Please have users click on the Skills for All login button to access Cisco Packet Tracer.
- Not everyone experiences this issue, but the issue is related to local cache on the device.

New NetAcad.com features released in Sept–Nov 2024

- ASC relationship user interface enhancements:
 - search columns
 - filter by relationship status
 - sort pending at the top
- Two contacts available per organization
- ASCs can suspend and unsuspend relationships
- Allow instructor/staff/contact to remove invited learners from classes. (s. later)
- View as Learner feature now works when viewing course resources (resources visible to only instructors will not be seen).

November 22 Platform Releases

- Instructors can manually enter a grade for assignments that do not have an electronic submission
- Students can resubmit any graded assignment without instructor requesting a resubmission
- Gradebook will indicate the “missing assignment” policy for all assignments
- In a class, we have renamed the title "Support Staff" to "Teaching Assistants“
- Packet Tracer Skills Assessment (PTSA) default assessment duration on new NetAcad.com changed from 2 hours to 6 hours for all PTSAs
- Various security enhancements and minor bug fixes

A screenshot of the 'Create Assignment Configuration' form. The form has a title bar with a close button. Below the title is a 'Configuration Name' text input field. The 'Select Learners' section has a search bar with the placeholder text 'Select Learners from the list', and a red arrow points to this section. The 'Availability' section has radio buttons for 'Available Now' and 'Schedule Availability', with 'Schedule Availability' selected. It includes 'Available From' and 'Until' date and time pickers. The 'Submission Date' section has 'Due Date' and 'No Later Than Date' pickers. The 'Attempt' section has a checked checkbox for 'Allow multiple attempts on assignment'. At the bottom, there are 'Number of attempts' and 'Score to keep' dropdown menus, and 'Cancel' and 'Create' buttons.

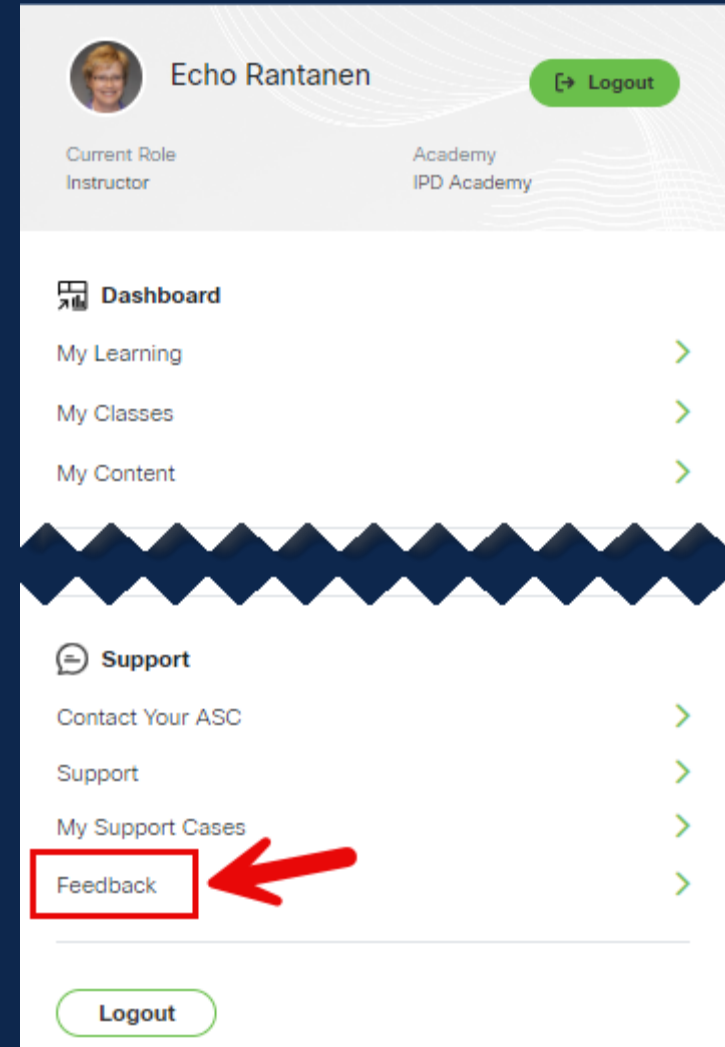

Providing Feedback

Go to your profile

User Menu

To provide feedback (and make sure it is read), please use the Feedback link on the User menu on NetAcad.com

New streamline version of the Feedback survey to quickly identify what issues or enhancements you are submitting.

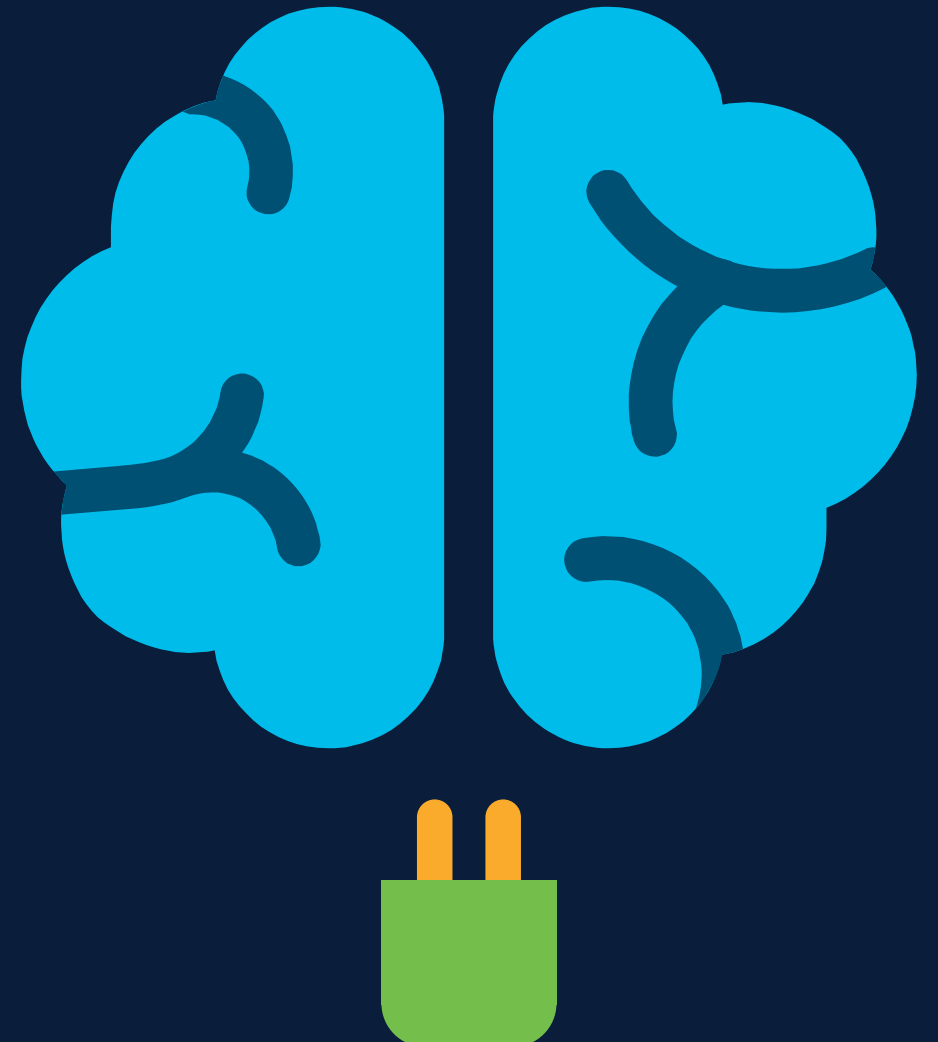

IMPORTANT: This form is not a support ticket. If you need support, please use the Virtual Assistant on NetAcad.com.

Functionality Roadmap

Priority items planned to release in next 3 to 5 months

- Enhancements to Bulk Editor
 - Ability to bulk edit ungraded assignments
 - Ability to bulk edit additional assignment settings such as duration.
- Add duration option to module exams, module group exams and checkpoint exams – currently only on final exams
- Adding Certificate of Completion to all Cisco Instructor-led courses (not Partner courses)
 - Includes Instructor signature
 - Will apply to new classes, can be generated manually for classes create before release

Equipment Updates

Cisco Catalyst 1000 EoL

- Catalyst 1000 EoL announcement on April 30, 2024
- Catalyst 1000 can be ordered until April 30, 2025
- Cisco supports devices for 5 years after the End of Sale date

End-of-life milestones

Table 1. End-of-life milestones and dates for the Cisco Catalyst 1000 Series Switches

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end-of-sale and end-of-life of a product is distributed to the general public.	April 30, 2024
End-of-Sale Date: HW	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date.	April 30, 2025
Last Ship Date: HW	The last-possible ship date that can be requested of Cisco and/or its contract manufacturers. Actual ship date is dependent on lead time.	July 30, 2025
End of SW Maintenance Releases Date: HW	The last date that Cisco Engineering may release any final software maintenance releases or bug fixes. After this date, Cisco Engineering will no longer develop, repair, maintain, or test the product software.	April 30, 2026
End of Vulnerability/Security Support: HW	The last date that Cisco Engineering may release a planned maintenance release or scheduled software remedy for a security vulnerability issue.	April 30, 2030

Initial Replacement option Cat 1300, now 9200L

- In a previous announcement, we advised transitioning to Cisco Catalyst 1300 series switches. After full regression testing, we decided to remove it.
 - Operates a significantly different custom Linux-based operating system
 - Command syntax variations and missing commands, for example there is no *show ip interface brief* command
 - Determined for most Academies it was too disruptive to the learning and teaching experience.
- If you currently have the Cat 1300 on an equipment order, it will be returned to you asking to either select the Cat 1000 (up to April 30, 2025) or the Cat 9200L
- If you have purchased the Cat 1300, we have finalized the [regression testing documentation](#) and it can be located in Educator Resources

CML Free Version

CML Free Version

Infos in den News

- CML Website update on December 11th - <https://www.cisco.com/site/us/en/learn/training-certifications/training/modeling-labs.html>
- Cisco Modeling Labs Free version will include the following features:
 - Access to up to five devices (nodes) simultaneously with features such as smart annotations, and custom MAC address for predictable labs.
 - Experiment with reference platforms such as IOLv, IOLvL2, ASA v, and various host options like Ubuntu, Server, Desktop, and Alpine.
 - No time limitation or expiration date. Students can access free for as long as they need!
- Watch for more information from NetAcad on December 11th. There will be both an Instructor/Partner article as well as one for Learners.
- All it takes is a Cisco account to [sign up and access the Cisco Modeling Labs Free download](#)

Cisco Packet Tracer vs. Cisco Modeling Labs Free

- On Dec 11th we will share a document with a comparison between PT and CML.
- Will be posted to Educator Resources

Suche nach ,CML

DRAFT

Last Updated: November 25, 2024

Comparing Cisco Packet Tracer and Cisco Modeling Labs Free

Overview:

Cisco Packet Tracer is user-friendly and accessible, making it ideal for beginners and educational settings. It requires minimal technical skills for installation. In contrast, Cisco Modeling Labs (CML) offers the ability to practice with real operating systems and explore advanced networking capabilities, but it demands more technical expertise and hardware resources to run effectively.

Comparison criteria	Cisco Packet Tracer 8.2.2	Cisco Modeling Labs Free CML 2.8
Type of a Learning Tool	Simulator	Emulator
Minimal System Requirements	CPU: Intel Pentium 4, 2.53 GHz or equivalent RAM: 2 GB Hard Disk: 1.4 GB of free disk space	CPU*: 4 (physical cores) - Intel only RAM: 8 GB Hard Disk: 32 GB * Processor must support VTx and EPT.

Cisco Cybersecurity Associate

Prove your expertise in essential cybersecurity skills, concepts, and technologies, including predictive AI, IT infrastructure, operations, and vulnerabilities

Effective January 21, 2025, our Cisco CyberOps certifications will be updated to Cisco Cybersecurity certifications and will include new AI-related exam topics.

- ✓ Names of the exams and exam numbers will not change. Only certification names are being updated from CyberOps to Cybersecurity.
- ✓ The CyberOps Associate exam 200-201 CBROPS v1.1 is being updated to v1.2.
 - ✓ We will update our CyberOps Associate course on [NetAcad.com](https://www.netacad.com) to align it with the v1.2 cert exam.
- ✓ Last date to test for 200-201 CBROPS v1.1 is **January 20, 2025**.
- ✓ First date to test for 200-201 CBROPS v1.2 is **January 21, 2025**.

October 2024 Portfolio Updates

- Learning Portfolio Overview (including portfolio summary slide)
- Portfolio Infographic
- Portfolio Brochure

What's new

- Added Cisco Certificate in Ethical Hacking
- Added CCNA Supplemental modules
- Updated language availability tables

An infographic titled "Cisco Networking Academy Portfolio" showing a grid of course categories and their details. The categories include Fundamentals, Networking, Wireless, Programming, Automation, and Cloud. The infographic also lists various certificates and skills available.

Category	Subcategory	Course ID	Course Title	Duration	Language	Certificate
Fundamentals	Network Fundamentals	ENFD1000	Network Fundamentals	10 weeks	English, Spanish, Hindi, Japanese, Korean, Portuguese, Russian, Thai, Vietnamese	CCNA
	Network Fundamentals Supplemental	ENFD1000-S	Network Fundamentals Supplemental	10 weeks	English, Spanish, Hindi, Japanese, Korean, Portuguese, Russian, Thai, Vietnamese	CCNA
