

## Course Overview

This introductory course provides a brief overview of the Linux operating system, including basic installation and configuration of Linux software and the Linux command line. This eight-hour course lays foundational groundwork to progress to additional Linux courses and certifications.

## Benefits

The course equips students with foundational Linux skills, essential for various IT roles.

- ✓ Quickly introduces students to the fundamentals of the Linux operating system.
- ✓ Engages students with practical, hands-on exercises.
- ✓ Lays the groundwork for further Linux education and certification pathways.

## Course Details

**Target Audience:** High school, secondary and 2-year college vocational students, IT and non-IT fields university students, career changers

**Estimated Time to Completion:** 8 hours

**Prerequisites:** None

**Course Delivery:** Self-paced

**Learning Component Highlights:**

- 22 Sections
- Interactive activities and quizzes
- 1 final exam

**Course Recognitions:** Digital badge

**Certification Alignment:** None

**Recommended Next Course:** Linux Essentials or Linux 1

## Requirements

- ASC Alignment: Recommended
- Instructor Training: Optional
- Physical Equipment: Not required
